

QuadriDCM 1.3.FP2.a

Released: January 2016

NB: To run Quadri^{DCM} 1.3.FP2, you need Novapoint version 19.3x or newer.

Version 1.3.FP2.a

This is an important update, which is strongly recommend to install on all QuadriDCM 1.3 FP2 installations.

This update mainly improves QuadriDCM's capability to handle not valid tasks and features while sharing and receiving changes.

Join a Project, Receive
