

## Quadri 2.0.a

Released: August 2016

**NB: To run Quadri 2.0.a, you need Novapoint version 20.0x or newer.**

### Version 2.0.a

#### **Join a Project, Receive, Share, Reserve**

Crash with message "User must be specified for task" while processing data from project that referred to deleted project members. This only happened in rare situations for projects where project members were deleted.
